```java
import java.io.*;
import java.net.*;
public class Client
{
  public static void main(String[] args) throws Exception
  {
     Socket sock = new Socket("127.0.0.1", 3000);
     BufferedReader keyRead = new BufferedReader(new
InputStreamReader(System.in));
     OutputStream ostream = sock.getOutputStream();
     PrintWriter pwrite = new PrintWriter(ostream, true);
     InputStream istream = sock.getInputStream();
     BufferedReader receiveRead = new BufferedReader(new
InputStreamReader(istream));
     System.out.println("Start the chat, type and press Enter key");
     String receiveMessage, sendMessage;
     while(true)
     {
        sendMessage = keyRead.readLine();
        System.out.println("\n");
        pwrite.println(sendMessage);
        pwrite.flush();
        if((receiveMessage = receiveRead.readLine()) != null)
        {
          System.out.println("\nMessage received from server:");
            System.out.println(receiveMessage);
          System.out.println("\n");

        }
     }
   }
}
```
